

SRM Construction and Contracting Private Limited

 <https://srmcnc.com/>

WHO WE ARE

SRM Construction and Contracting Private Limited has been managing the Feed Design, Engineering & Detailed Design, Constructions, Earth Moving Machineries, Security Systems, Fire & Safety, Utility Projects, Pipeline Projects, Oil and Gas Projects, Government Projects, Design and Estimation, Infrastructure development business throughout Asia.

We know and excel in designing, inventing, creating, and improving.

SRM Construction and Contracting Private Limited are responsible for anything from little repairs to multi-million value projects. SRM construction and contracting private limited offers everything you need, from a modular construction to cutting-edge digital technologies and increased endurance.

SRM construction and contracting private limited intends to be a well-known infrastructure builder in India and the region.

We provide exceptional services that exceed our clients' expectations while adhering to the highest technical and individual excellence standards via continuous improvement, training, and innovation.

Mission

To be the trusted partner of choice for organizations by providing the most advanced and proven technologies in the industry to provide them with a reliable, trustworthy, secure and scalable infrastructure that enables innovation and productivity.

Vision

To be a leading group in the region redefining Service Excellence in Construction & Technology driven business solutions.

OUR COMMITMENTS

Consistency

Quality Assurance

Sustainability Initiatives

Giving Our Culture

Trust and Honesty

Cost Effective

Innovation

Completion on time

MILESTONES

1970

Year of
Commencement

1980-2000

Investing Into the Growth
of Industrial Economy

2010-2022

Giving In Large
Sustain Projects

SINCE 2023

Regional Records and Progress to Be
the Leading Group in the Region
Redefining Service Excellence

OUR JOURNEY

1970

Started as Earth Moving Company with the trust of clients.

2000

Establishment of the organization in ELV & Transport with contribution

2010

Success in the field of safety systems and infrastructure

2023

Supporting and build the Construction & Utilities commercial opportunity.

2030

Being the leading group in the area of infrastructure and utilities.

CLUSTERS OF SERVICE

ENGINEERING

- FEED Design
- Engineering & Detailed Design
- Design & Estimation

CONSTRUCTION

- Residential/Commercial Construction
- Infrastructure
- Utility Projects
- Pipeline Projects
- Oil & Gas Projects
- Government Projects

CONTRACTING & TRANSPORT

- Earth Moving Machineries & Transport
- ELV Network Security System
- Fire & Safety
- Telecommunication

ENGINEERING

Our pre-construction specialists use best practices and gained expertise to maximize design and construction capabilities, as well as continual value engineering to provide

the best value at the lowest cost without sacrificing your design vision.

Increasing design and construction capabilities adds measurable value and reduces risk.

Our Solutions

- ▶ FEED Design
- ▶ Engineering & Detailed Design
- ▶ Planning Design & Estimation
- ▶ Structural Engineering
- ▶ Architectural Engineering
- ▶ Construction Engineering And Management
- ▶ Geotechnical Engineering
- ▶ Pipeline, Oil & Gas Engineering
- ▶ Wet Utility Management Engineering
- ▶ Materials Engineering
- ▶ ELV-Network Security System
- ▶ Fire & Safety Solutions
- ▶ Telecommunication Solutions

CONSTRUCTIONS

1. Residential/Commercial Construction

With a rapid cost analysis of several design possibilities, we can simulate alternative solutions.

We specialize in delivering big complex construction and retaining structure projects by using our in-house knowledge and trained team.

With an emphasis on cost reduction, virtual engineering provides a unique chance for our professionals to participate in new thinking and creative problem solutions.

CONSTRUCTIONS

2. Infrastructure

SRM has the infrastructure, expertise, and abilities to build the necessary pipelines, pumping stations, and sewage networks.

Transmission & Distribution Networks Installation of potable water and irrigation networks, as well as sewage, drainage, and fire suppression systems.

Installation, pipe laying, testing, and commissioning of full networks in commercial, industrial, and residential buildings are among the services provided.

- Utility Projects
- Pipeline Projects
- Oil & Gas Projects
- Government Projects

CONTRACTING & TRANSPORT

1. Earth Moving Machineries & Transport

Earth moving equipment include heavy machines, heavy trucks, construction equipment, heavy vehicles, engineering equipment, and heavy hydraulics.

SRM Construction And Contracting Private Limited's maintenance section inspects equipment prior to distribution to guarantee fit for usage and compliance performance.

An SRM Construction And Contracting Private Limited plant system that is recognized and certified under ISO 9001 controls and monitors the operational availability and condition of construction plant and equipment.

SRM Construction And Contracting Private Limited offers the largest fleet of cranes and other specialized equipment for comprehensive lifting solutions.

CONTRACTING & TRANSPORT

2. Elv- Network Security System

SRM Construction And Contracting Private Limited has the ability to design a complete security solution to meet both your needs and your budget.

Our method to developing a preliminary security design will assess the problem and build and implement the most appropriate solution utilizing the finest technology,

- Automatic Number Plate Recognition System.
- CCTV Video Surveillance System
- Access Control & Identity Management Systems
- Intercom Systems & Alarm Systems
- Parking Management Systems Network Infrastructure
- Street Lighting Monitoring and Control Systems
- Integrated Security Solutions
- PA/BGM Systems
- Audio Visual Systems
- SMATV/IPTV Systems

project management, and execution to provide quantifiable outcomes on time and on budget.

CONTRACTING & TRANSPORT

3. Fire & Safety

We are an ISO certified company that provides complete and in-depth services in the design, supply, installation, testing, commissioning, and maintenance of a wide range of firefighting systems.

Our Solution

- Fire Alarm System
- Emergency/exit lights
- Sprinkler systems
- Firefighting pumps
- Portable fire extinguishers
- Fire hose reels
- Deluge systems
- Fire hydrants system

CONTRACTING & TRANSPORT

4. Telecommunication

SRM Construction And Contracting Private Limited Telecom Department is India's top source of specialized engineering and installation capabilities for telecommunications projects.

In collaboration with global technology industry experts, we provide comprehensive business and technology solutions to telecom operators/regulators, government agencies, and corporations.

Our Solutions

- Corporate and academic wide area networks
- Police and fire communications systems
- Campus network
- Products for Small & Medium Business
- Telephony solutions for Hotels and Large Enterprises
- Hospitality Applications Voice mail & Call Accounting Service

OUR CLIENTS

we have handled more than 50+ residential and commercial clients across India

 ARSEN & TOUBRO	 Chennai Metro <small>Chennai Metro Rail Limited</small>	 TATA ELECTRONICS
 रेलटेल RAILTEL	 TAMIL NADU WATER SUPPLY AND DRAINAGE BOARD	 भारतीय रेल • INDIAN RAILWAYS
 meil	 SMART <small>INFRATECH DEVELOPERS</small>
